G. G. COOTE, M.P. TO ADDRESS PASS MEETINGS

G. G. Coote, M.P. for the Macleod federal riding, will address meetings in the Pass next week, starting with Hillcrest at 7.30 on Monday, and Blairmore 8.30 the same evening. Meetings at Coleman and Bellevue will be held on Tuesday.

H. E. G. H. Scholesfield, vice-president of the United Farmers of Alberta, will also be present.

REV. JOHN WOOD HILLCREST PASTOR

An important event took place at Hillcrest the other day, when Rev. John Wood was inducted to the pastorate of the United church. Rev. Wood has been pastor of the Bellevue congregation for the past year, where he has been doing splendid work. This induction gives effect to the decision of the Alberta conference to unite the Bellevue and Hillcrest congregations, thus forming an important pastoral charge under the ministry of Rev. Wood.

The induction was a very inspiring service, and was well attended by Hillcrest people and representatives from Bellevue.

A sermon on "The Church is the Body of Christ" was preached by Rev. D. E. Martin, B.A., Ph.D., of St. Giles, Hamilton, Ontario. Dr. Martin is visiting the Home Mission Work in the western provinces, seeing at first hand the extensive work being done by the United church.

The presbytery was represented by Rev. J. W. Smith, B.D., of Blairmore, who conducted the service and duly delivered the pulpit to Rev. Wood in the name of the presbytery.

The induction was followed by a reception and a hearty welcome was extended to Mr. Wood and family by the congregation. The ladies presented Mrs. Wood with a bouquet of beautiful flowers.

After the induction, Rev. Smith, who for the past nine months has been conducting services in Hillcrest on Sunday afternoon and working with the boys, etc., during the week, was remembered by the congregation. A fine Parker pen and pencil set, a purse and a bouquet to Mrs. Smith, were tokens of the esteem and regard in which Mr. and Mrs. Smith are held by the Hillcrest congregation.

REBEKAH OFFICERS INSTALLED

At the regular meeting of Crowview Rebekah Lodge, which was held on Thursday evening, July 3rd, the following officers were installed by D.D.P., S. H. Halton, of Pincher Creek: N.G.—Sis. Barstall, V.G.—Sis. Erickson, Warden—Sis. Feron, Conductor—Sis. McKay, Chaplain—Sis. Oliver, R.S.N.G.—Sis. Patterson, L.S.N.G.—Sis. Hamilton, R.S.V.G.—Sis. Turner, L.S.V.G.—Sis. Hill, I.G.—Sis. Pinkney, O.G.—Sis. Kidd, Treasurer—Sis. Archer, Financial Secretary—Sis. Walker, Recording Secretary—Sis. Howe, Pianist—Bro. McKay.

GIRLS' CAMP

The C.G.L.T. camp now being held at the headgate of the Lethbridge Northern, 10 miles west of Macleod, is in full swing with 92 girls in camp. A permanent dining room and kitchen have been built and a full camp equipment purchased. The girls are well and are having a wonderful time.

The boys will go into camp on Monday next, until the following Monday. Boys 12 years and over may go, if they register with Rev. J. W. Smith. The camp fee is \$5.50.

FERNIE COUNCIL ASSES NEW ROAD

FERNIE, July 8.—At the council meeting last Thursday night a resolution was passed requesting the provincial government to proceed at once to construct a road from Corbin, British Columbia, to the international boundary. Among the many reasons for this request is the fact that considerable construction work is going on in the Flathead Valley. Tools for the oil wells there have to be brought in from Turner Valley via Fernie and the U.S.A. at great cost.

For road work at Sage Creek the provincial government will have to ship men via the U.S.A. and purchase supplies in the United States, unless this road was constructed.

The development of this road would relieve the unemployment situation, which is acute here on account of the changing conditions in the coal industry.

INDUCT NEW PASTOR AT COLEMAN

On Friday evening last, Rev. Albert E. Larke was inducted into the pastoral charge of Coleman United church by the Lethbridge Presbytery.

The induction was conducted by Rev. J. W. Smith, who also addressed the congregation and the minister. Rev. John Wood, of Bellevue and Hillcrest, preached a splendid sermon on "The Church's Task."

A large number of Coleman people were out to welcome their new minister and family. Representatives of the Anglican church and the Salvation Army were also present.

A reception for Mr. and Mrs. Larke was held after the induction and a bouquet was presented to Mrs. Larke by the ladies.

THE SALVATION ARMY

Captain Wm. Slous and Lieut. J. Wiseman have been appointed to this field of the Salvatig Army operations, with their office in Coleman. The captain has been a member of the Army for sixteen years. He has been connected with the Army both on this side and also in the United States, serving for a couple of years in the Army as an envoy, assisting also in charge of its works in Muscatine, Ia. Then, coming back to Canada, entering the Salvation Army training college in 1928 for nine months training for the work in this country, the captain then being commissioned as sergeant over the session of boys that has just been commissioned, while he waited for the session to enter in September, 1929, he served two months on the Manitoba Chariot, where God richly blessed their work in seeing souls converted.

The captain's work for the past nine months has been behind the scenes a great deal, in helping to fit officers for the work on the field. The lieutenant that the captain has with him has served for a few years as a member of the Army, entering the college last September, and was a great deal under the captain's care. They have both come to Coleman and Blairmore, not to think of themselves, but to help the people of the surrounding district. They wish to announce that they are willing at any time they should be called upon, whether in sickness or death, to give a helping hand; to assist also, anyone having difficulties in their spiritual experience. They wish to thank all the business men of Blairmore for their hearty co-operation.

Mr. Roufusse was quite surprised on July 1st to find his home was slightly damaged by fire during his absence and wishes to thank those who put out the blaze, especially the ones who helped themselves to quite a quantity of Watkins products, for which he is agent.

COLE'S THEATRE BELLEVUE

Thursday, Friday and Saturday
Ramon Novarra in "Gay Madrid"

The color and romantic flavour associated with the pictures of Ramon Novarra are brought to you again in his latest production "In Gay Madrid." Novarra is the rollicking Ricardo and gives a dashing performance. The settings are magnificent and in keeping with the charm and romance of old Spain.

FOX NEWS COMEDY
Matinee at 1.20 Two shows Saturday night 7.30 and 9.30

Monday, Tuesday and Wednesday
"The Ship from Shanghai"

Dale Collie's mighty drama of the sea. With Conrad Nagel, Carmel Myers. If you want a really exciting picture with a thrilling story, a sea story that's different, a talkie you'll talk about, a cast you'll try hard to equal, see "The Ship from Shanghai."

Comedy—technicolor feature—"Old Spain"

Next Week

The thrill of a lifetime for golfers and others. Walter Hagen and Leo Diegel, coming to Bellevue in their feature.

"Match Play"

Come and see these champions uncover the fine points of the game.

Next Thursday, Friday and Saturday
"Caught Short"

The comedy that is breaking every theatre record from coast to coast for attendances. Marie Dressler and Polly Moran, rival Boarding housekeepers, take a joy ride on Wall Street. Queens for a day—then the crash. The laugh panic of the year.

WORLD HAPPENINGS BRIEFLY TOLD

Three hundred and fifty Canadian pilgrims headed by Cardinal Rouleau of Quebec, were received in audience recently by Pope Pius.

A permit to develop an area of 5,120 acres of bituminous sands in Alberta has been granted to Walter P. Hinton, Toronto, according to the current issues of the Canada Gazette.

The recently signed parcel post agreement between Cuba and Canada is expected to be a precursor to a complete commercial treaty between the two nations.

The French military tribunal has been dissolved and the possession of buildings, including the military prison, handed over to the German authorities.

J. G. A. Creighton, C.M.G., K.C., law clerk of the Senate, dropped dead in the Rideau Club, Ottawa. He was 80. He had occupied his post 48 years, and had also been parliamentary counsel of the Senate since 1909.

On June 27, the King and Queen of Iceland and Denmark, assisted by the Icelandic cabinet, received Canadians and Americans of Icelandic descent, at the foot of the famous Rock of Laws, in Thingvellir Plain.

Two hundred members of the Sons of Freedom, Doukhobor sect, passed peacefully through Nelson, on their way from Porto Rico, B.C., their way for the past year, to join the main Doukhobor settlement at Brilliant.

Announcement has been made that the Canadian Holstein Friesian Association will this year pay out \$15,000 in prize money to breeder-exhibitors of Holstein cattle in addition to the amounts paid out by fair boards throughout the Dominion.

The third No. 4 Canadian General Hospital Scholarship of \$250 in the faculty of medicine at the University of Toronto, has been awarded to D. W. Johnston, Regina, Sask. It is a war memorial scholarship given by the Alumni Federation of the University.

High In Mental Ability

George Bernard Shaw Brainiest Man In England According To Vote Taken

George Bernard Shaw, according to readers of *The Spectator*, the well-known London weekly review, possesses the best brains in the country. *The Spectator* is a journal circulating among the more thoughtful class of people whose opinions in regard to mental ability are widely considered.

The result of the recent vote is interesting in many ways. Here are the leading men in their "order of merit": Bernard Shaw, 214; Sir Oliver Lodge, 183; Lord Birkenhead, 162; Winston Churchill, 95; Deeds Inge, 91; H. G. Wells, 86; Lord Melchett, 62; Lloyd George, 50; Philip Snowden, 48; Sir John Simon, 45.

The present prime minister does not receive a vote and Mr. Baldwin gets but 13. The Archbishop of Canterbury, Dr. Lang, finds no place in the Archbishop of York (Dr. Temple), with 32 votes follows closely upon the heels of Lord Reading, who obtained 35. Sir James Barrie is "placed" by 15 voters and follows G. K. Chesterton's 17.

Bred In Western Canada

A great majority of the people have the mistaken idea that the wild duck supply comes from remote northern fastnesses. The fact is the ducks ordinarily hunted for game, except the black duck and perhaps the green-winged teal, to a certain extent, are western in their breeding range. The canvas-backs, red-heads, mallards and scaups, which are shot in Ontario and Quebec in the open season, are bred in Western Canada.

"Don't forget that when you have bought the car you still have the petrol to pay for," says a writer. It's the spirit of the thing that counts.

In Hollywood

"Do you see that gentleman? He's the nicest man I was ever married to."—Lustige Schach, Leipzig.

Experiment a Total Loss

Giant Tube To Convert Gulf Stream To Electrical Energy Collapses

A giant tube built at a cost of more than \$1,000,000 and designed to harness the waters of the Gulf Stream to convert them into electrical energy, collapsed when sunk into the sea near Matanzas, Cuba, and was destroyed.

The tube was designed by Georges Claude, the French scientist. It was built of corrugated steel, was 1,800 meters long and required three months to build.

The plan was to place the great tube in a channel on the bottom of the sea to serve as pipe line from the Gulf Stream to a power plant erected at Professor Claude's laboratory along the golf shore, near Matanzas.

Professor Claude's theory was that the Gulf Stream water, being subjected to vacuum would rise to the boiling point and produce steam sufficient to turn great turbines for generating electrical power.

Beauty and Usefulness

No Reason Why Everyday Things Should Not Be Attractive

The consumer has cause to rejoice over the reunion of beauty with usefulness. Where else if not in the home should such a movement exert its most beneficial influence? There is no reason why beauty, like charity, should not begin at home; why the lamp in the boudoir, the gas range in the kitchen, the ash tray in the library, the automobile in the garage should not be designed and colored by the best artists industry can afford to employ.

This flight into the realm of art which modern business has taken is more than a profitable sales appeal. It is a cultural force that, if not dissipated in a straining toward extremes, may eventually help to raise the level of popular taste.

Monster Inter-Provincial Picnic

Will Celebrate Linking Of Manitoba and Saskatchewan Highways At Gateway On Labor Day

Arrangements are rapidly being pushed forward for the monster Inter-Provincial Picnic, on Labor Day, on the Manitoba-Saskatchewan boundary, at the Manitoba-Motor League, who, in his enthusiasm for anything which makes for development of tourist traffic and good roads, made a special solo trip from Winnipeg to attend the meeting.

Following the business session, and spurred by the enthusiasm of H. J. Bowley, the energetic chairman of the grounds committee of the Manitoba section, the meeting adjourned to the picnic grounds in the beautiful Assiniboine Valley, eight miles west of Roblin to view the site chosen for the picnic. At this point Manitoba Scenic Highway No. 5, joins Saskatchewan Highway No. 10. All were delighted with the wonderful natural amphitheatres and picnic grounds available through the courtesy of the owner "Bill" Thompson, an old timer of the Roblin district.

At the site chosen for the picnic, which will be of the basket variety, there is a beautiful level meadow bordered by low lying bushes and with Assiniboine River in the western limit. Rising from the meadow which is on the floor of the Assiniboine Valley, at that point about a mile wide, there is a natural bowl amphitheatrical formed out of the banks of the valley, profuse with trees, and ideally suited for accommodating thousands of spectators. A platform can be erected at the base of the hills and speakers can be seen and heard by thousands with comfort. The festival will be slated to start about 11 a.m., when bands from points in Manitoba and Saskatchewan will be presenting a musical programme until the noon hour. Picnic basket lunch will take about one hour, to be followed by a symbolic ceremony to indicate the linking up of the good road highway systems of Manitoba and Saskatchewan at that point. Honorable W. R. Cubb, Manitoba Minister of Public Works and Honorable A. C. Stewart, Minister of Highways for Saskatchewan, are expected to function as the chief participants in this symbolic ceremony. Governor Christianson, of Minnesota and possibly Governor Sorenson, of North Dakota, are expected to be on hand to give the occasion a friendly International flavor. There will be picnic games, a Buffalo barbecue, where a thousand heads will be broiled if necessary, a sudden death baseball tournament between all star Manitoba and Saskatchewan teams, championship horseshoe pitching contest, children's sports, and many other diversions, entertainments and attractions. Altogether it is freely conceded that a very pleasant time will be had on this occasion. Hot water and hot dogs will be available on the grounds. And the world is invited to attend.

Many will ask what is this all about? The aims and objects of the Inter-Provincial Association, which is the body set up to handle this picnic, is stated in its literature to be "Organized by communities and public bodies of Manitoba and Saskatchewan to celebrate in the form of an Inter-Provincial Picnic, on Labor Day, September 1st, 1930, at the Manitoba-Saskatchewan boundary in the Assiniboine River Valley at the junction, near Roblin, Manitoba, of Scenic Highway No. 5, with Saskatchewan Highway No. 10; the completion and linking of all weather roadways systems of Manitoba and Saskatchewan at that point." While the basis of the appeal to the public and especially the motorists to come and celebrate is largely from the standpoint of well founded publicity, there is a strong sentimental urge behind the proposal. To those who have watched the development of transportation of people and things through the Prairie Provinces from the old Red River cart to the present day motor car and motor bus, must come the realization that we live in Western Canada stand in the bright light of a new day insofar as transportation over our prairies is concerned. The era of motor transportation is upon us and while we rejoice in its coming, we all have many deeply rooted keen attachments for the old order of things. And so the Inter-Provincial Picnic is conceived as a sentimental medium, as a sentimental appeal, and

as a disseminating agent of good will between our Prairie communities and our friends to the south of the U.S.A. border, and as a gathering to evidence the fact that good roads for which we have long struggled have brought distant communities practically to each others door.

Using Small Seadrome

San Francisco Air Ferry Has Float Anchored At End Of Dock

A seadrome, built on the principles of proposed mid-sea landing places for aeroplanes, has been put in service by a San Francisco bay air ferry service. It is 100 feet wide, and declared to be the smallest floating island landing place in the country. Shaped like an inverted saucer, the landing contrivance has a smooth rounded top and beneath its hull is a system of air tanks which may be regulated to control the depth and angle at which the device floats. The artificial island idea is carried out with sand on the inclines to prevent the amphibians from skidding. The float is cemented into paint. The float is anchored at the end of a dock where more than 25 landings a day are made, with a similar number of take-offs.

Build Annex To Elevator

Big Grain Storage Elevator At Fort William To Be Enlarged

Erection of a grain storage annex of 1,600,000 bushels capacity to the Fort William terminal elevator of N. M. Paterson and Company, is announced by Norman M. Paterson, president, at a cost of approximately \$250,000. Construction will start immediately by the Fegles Construction Company, of Minneapolis and Fort William. It will be completed and ready for storage by about October 1. Engineers of the Fegles Company will prepare for construction to begin within a fortnight.

Regina's Population Increases

Population Is Now Estimated To Be Nearly 67,000

Population of greater Regina is now 66,996 according to figures released by the Regina Board of Trade. The figures represent the population of the city on June 1, it was said. This figure shows a growth of 4,515 over the previous unofficial figure of 62,481 compiled by Henderson's directories and the Regina Board of Trade, reported for June 1, 1929.

Telegraph Lines In Canada

Latest statistics show over 338,000 miles of telegraph lines in Canada; in addition to which trans-Atlantic cables have their terminus in Canada, five on the Atlantic and one on the Pacific, and handle nearly 8,000,000 cables annually.

To Prove His Belief

A Polar expedition may be launched by Dr. Knud Rasmussen, noted Arctic explorer, to demonstrate his belief that the Eskimos are related to the neolithic men who inhabited the caves of what is now France and other parts of Europe.

SUNDAY SCHOOL LESSON

JULY 15

JACOB, A BELIEF MAN TRANSFORMED

Golden Text: "For what shall a man be profited, if he shall gain the whole world, and forfeit his life? or what shall a man give in exchange for his life?"—Matthew 16:26. Lesson: Genesis 25:19-28; chapters 27-33; 46:28 to 47:12. Devotional Reading: Psalm 107:1-14.

Explanations and Comments

Jacob Treats His Brother Mealy, 25:20-34.—One day Jacob prepared potage, a dish made of lentils or small beans, and Esau, his brother, coming in faint from the field, begged for it. "Therefore was his name called Edom," "Edom" means "Red"; Esau had red hair and red complexion, and it was red potage for which he asked his birthright. All of these things combined to give him the name of Edom, and his descendants were called Edomites. "Sell me thy birthright," Jacob demanded, taking a mean advantage of Esau's exhaustion and hunger. By the birthright he meant the rights and privileges of the first born, which, as we so often say, is a double portion of the father's property and succession to the leadership of the family; priestly rights, and in the family of Abraham heirship to the covenant privileges. Meant as Jacob's proposal was, it shows that he appreciated the value of the birthright, as Esau, who cared only for the gratification of the present moment, could not.

"Behold, I am about to die," Esau exclaimed—he was "tired to death," as we so often say with a little truth,—"and what profit shall the birthright do to me?" Jacob knew that Esau's hunger was appeased, and he was not to be deceived by him. He was a sharp bargainer that Jacob drove, how sharp Esau did not realize, for he was not bold enough to appreciate the birthright's value. He had his bread and potage and went his way, but he had lost his birthright. His birthright was nothing that he could see or eat or drink, and therefore he could not appreciate it.

Canadian Bond Sales

Amount Being Invested In Bonds Speaks Well For Prosperity Of Dominion

The first five months of the present calendar year saw Canadian bond sales total \$282,577,277, as compared with \$228,765,612 for the similar period of 1929, and \$210,255,660 for that of 1928. Two thirds of the whole, or \$214,895,277, were purchased in Canada while the remainder, amounting to \$77,781,999 were bought in the United States.

Good Even If Old

Students of Ottawa University have been busy with a plan which has been tried in the scholastic grounds for twenty-seven years, and they liked it. Forty quarts of the preserves were found buried several feet in the earth by excoavators, working on the location of the old kitchen destroyed by fire in 1903.

The front pane in the church may lack the required degree of upholstery, but at least there's no wind-chill to take a header through unexpectedly.

Presentations To Iceland

Interesting Ceremony Concluded At Meeting At Thingvellir

A bronze tablet, bearing the likeness of Thomas H. Johnson, at one time minister of public works and later attorney-general of Manitoba, was unveiled at Thingvellir, by Hon. W. J. Major and officially presented to Iceland as Manitoba's millennial gift. The tablet, which bears an excellent likeness of the first Icelandier to occupy a cabinet position in a Canadian legislature, hangs on the wall of the antechamber in the parliament building. A large number of Canadian Icelanders were in attendance and after Mr. Major's address "O Canada" sounded for the first time in Icelandic legislature halls. The ceremony closed with the Icelandic and British National Anthems.

The gift of the United States was officially presented by Senator Burton and Dr. Sveinbjorn Johnson. Arni Eggertsson officially presented the resolution passed by the last session of the Canadian parliament, declaring its desire to honor Iceland with a gift which would be most acceptable. The character of the gift will be determined by the recommendation of the Canadian representatives upon their return.

Germany's gift to Iceland on this occasion is complete equipment for a scientific laboratory. For the building, when erected, Sweden presented a library of 800 books; Norway an exchange scholarship fund; Denmark a Copenhagen porcelain vase and bestowed upon the president of the Order of Commander of the Legion of Honor; a bronze bust of Vilhjálmur Stefánsson by the Icelandic American sculptress, Nina Saemundsson, was the gift of the Danish women of America.

There were numerous other gifts and countless illuminated addresses in most elaborate bindings. The celebration officially closed after three wonderful days at Thingvellir.

Good Roads Program

Extensive Mileage In The National Fair Being Built This Year

Good roads are being extended to every part of Canada. In the rural districts of every province there is a network of paved or surfaced roads, which not only are of benefit to the motorists, but to the farmers. In the National Parks of Canada, the great playgrounds of the country, maintained by the Canadian Government, there is an extensive mileage of improved roads. The road building programme in these parks this year is a substantial one and the provincial governments are constructing sections to connect the roads in the parks with the principal provincial highways.

Automatic Office Box

A Berlin post office has been equipped with automatic letter boxes, and when letters posted in them have reached a certain total weight, they are conveyed automatically by a travelling band to the sorting room.

CHAPTER XIX—Continued

Charman nodded, took the scrap of paper and stately pencil he was holding, and wrote it down.

"I never was much good at remembering addresses," declared the doctor. "Here it is, Annie. Run in quickly, or you'll take cold."

The small girl who had followed him from the house, grasped the paper in her cold hands, and with a shy smile for Charman, scurried away like a half-frightened animal.

"They must be very poor," said Charman as the doctor took his place beside her. "What does that woman want with Jimmy's address?"

She was thinking: Could it be possible that Jim was still collecting interest, at this distance? The thought nipped at her. For the sake of auld lang syne and her peace of mind, she wanted to think better of him than that. But how could she?

She turned to look at the old doctor. He seemed to have read her thoughts as he responded: "There is a verse in the Bible, Charman, that says: 'When thou dost alms, let not thy left hand know what thy right hand doeth.' That describes as well as anything could, I think, Jim Bennett's character. Seeing him going about the country on the bank's business 'the best man for the job' they've ever had, according to George K, one wouldn't suspect that he was wearing the mantle of the Good Samaritan, now-would they?"

"I don't seem to understand."

The doctor smiled at her bewilderment.

"Why should you? If I didn't feel pretty closely on Jim's heels, I wouldn't understand myself. Like as not he'd pound the life out of me for telling; but that doesn't scare me—with the boy three thousand miles away! You see, my dear, Jim's father left considerable property. Jim came into his share at twenty-one, and he earns a good salary at the bank. He's well fixed—for Wickfield. No tie to save his mother, and she's provided for."

The old man paused, while Charman urged impatiently: "Go on, please, Doctor. You're wandering all 'round Robin Hood's barn. You say that Jim is a good Samaritan; but if collecting interest from windows and orphan—"

"Tut! tut!" broke in the doctor quickly. "You go too fast. I think you'll admit that there's a difference in collecting interest from the poor, my child, and paying that interest for them—lending a hand—helping a lame dog over a stile, you know—lending one's own money with no interest. That's what our Jim's been doing for five years whenever he came across a case deserving help. That woman wanted his address, so she could send a Christmas card."

"Oh, no!" cried Charman.

This was the doctor understood, not a protest at the Christmas card, but at her own blindness. She had to

set her firm white teeth into his lip in order to keep it steady. "It must have hurt him horribly," she confessed after a tense moment. "I was a fool! I didn't see. I asked if he felt like—like Shylcock!"

"There could be a difference. Then the doctor said: 'Yes—that would have hurt.'"

"He should have told me," cried Charman, grasping at this straw in self-defense.

"They could be—being Jim? You had misjudged him," responded the old man with rugged honesty. "I shall never, never forgive myself!" she declared passionately.

"The doctor smiled.

"Perhaps not, but Jim will forgive you, child, if I know him as I think I do. There! Charman, don't be too much disturbed. Just drop the lad a line and say you understand."

"But will he understand?" asked the girl, raising upstaring eyes to her old friend. "I should think, he'd despise me."

"Not Jim!" answered the doctor. "Come, child, cheer up. We're almost home, and I don't want Grandma to think that I've been scolding you!" Charman managed a misty smile as she replied: "I deserve worse than a scolding. I—ought to be—lynched!" And they both laughed as they drew up before the window where Grandma was waiting.

"So you had a ride?" she asked as the girl came in. "Were you warm enough? It's a terribly cold day. The doctor's run in three times from the office to look at the furnace. I wish I was young enough to marry that man, Charman, just to keep him in the family. Some one'll get him."

"Undoubtedly."

Charman smiled, but as she slipped off her coat and sought the register for warmth, their recent conversation on the subject of John Carter came back, and her color deepened.

"Yes, I was warm enough, Grandma, thanks to Doctor Howe's 'old faithful,' as Jim calls that ancient cape. We went to South Wickfield while he made a call."

"Who on?" asked Grandma with ready interest. "The real sick season's just beginning."

"The Smithsons. The mother has the grippe, but she's on the mend."

"Poor soul!" murmured Grandma compassionately. "She must have real hard time making both ends meet. You ought to carry her something good to eat, child, while she's laid up. I don't suppose there's any one to do for her, but Edward Howe, though she won't have to worry about her doctor's bill. Sometimes I've wondered how she's managed to keep a roof over her head, left as she was with all those children."

"I'll tell you how," said Charman, and proceeded to divulge Jim's secret. Her voice trembled as she finished, not wishing to spare herself: "And I asked him, Grandma, if he'd feel like Shylcock! I remembered he answered, 'Why on earth should I?—and that made me mad. Oh!—I think I'm the stupidest girl in the whole world! It does seem, when I've known Jim Bennett all my life, as if I might have understood that he wouldn't be hard-hearted to— to a sick kitten!'"

She had sunk down on a hassock at Grandma's feet. And the old lady reached out and stroked her hair.

"There, dearie, Jim isn't one to bear a grudge. You just write him a real nice letter and say you're sorry. And that reminds me something else. Jim was here one day when you were out. He wanted I should make you understand something after he got away, and the only times I've thought of it were when you were at school, or evenings when the doctor was in and I couldn't speak. It was about his mother and that apron string business that's always bothered you. He said he'd tried to explain to you, but somehow he couldn't get it out, so he came to me. I guess maybe it's easier to talk to old folks. You see, dearie."

The girl looked up, breathless, as Grandma, finishing Jim's story, said: "It taught me a lesson; but if I forgot myself, Charman, and ask any promises of you when my time comes, it'll be because I don't know what I'm doing, and you mustn't feel called upon to keep 'em. James Bennett never meant for Jim to be a slave to his mother the way he has been. I told him so, and I think it made his boy feel happier. Anyhow, he said I did him a night o' good. I've an idea that Jimmy's a lot more sensitive

UNIVERSITY OF MANITOBA

WINNIPEG
Offers, among others, the following Courses:
Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A. in the following: English, History, Philosophy, Education, and Architecture.

Through its FACULTY OF LAW courses leading to the degree of LL.B.
For terms of admission, details of courses and other information, apply to
W. J. SPENCE, Registrar,
University of Manitoba, Winnipeg.

than folks give him credit for being."

"I—I don't see why he finds it so difficult to talk to me," said Charman, a vague hurt tugging at her heart.

"I do," replied Grandma. "It's for two reasons. One's because he felt you didn't understand him; and the other's because he cares such a heap more for a girl who hasn't seen him in short pants' days, wading barefoot in Fuller's brook, and his toes tied up afterwards in rags because he's stepped on a broken bottle or something—more romantic maybe."

A reluctant laugh escaped the girl as she arose.

"Well, Grandma, I feel like a criminal; but I suppose we've got to eat. Thank goodness it's been night and everything's ready. You and John will have to play double Canfield this evening instead of bridge. I've got to write to Jim, or I shan't be able to sleep a wink! I feel," she added, turning as she reached the door, "I feel just about one inch high!"

CHAPTER XX.

What all our "Blessed Damozel" these days?"

Grandma and the young doctor were eating their noon-day meal at the kitchen table. Christmas had come and gone, and Wickfield was settled down to the cold, hard, relentless winter months. For three weeks snow had fallen at frequent intervals, freezing almost as soon as it reached the ground, so that the roads and sidewalks were packed.

Charman had expressed a wish that despite the cold, they might stay to "keep 'til spring" because the walk to school was so much easier on the hard snow than through the slush and mud that accompanied warmer days.

She had refused the doctor's offer of a ride, and, feeling vaguely troubled, Grandma had watched her out of sight. Something was wrong.

John Carter's question, therefore, came as a relief, giving her an opportunity to speak her thoughts. Yet she smiled at the manner of putting it, though the young M.D. had addressed her granddaughter in a like manner many times since a day in August when he had driven into the yard to find her leaning from his own bedroom window, the sun making an aureole of her hair. He had stopped the car directly below her, and stared up in admiration as he said:

"You look like the blessed damozel."

"Her eyes were deeper than the depths Of waters stilled at even; She had three lilies in her hand, And the stars in her hair were seven."

"Did you do it purposely?"

Charman, still, leaning on the window sill, glanced down at the golden lilies in her hand, and answered: "Not guilty. As you perceive, I have had a shampoo. I went into the garden to let the sun lend a hand at the drying, and picked these glories for your bedside table. This accounts for my invasion of your domain; but your imagination is vivid, Doctor John. Where, please, are the seven stars to adorn my hair?"

(To Be Continued.)

Descends To Great Depth
A new "deep-sea" diving record is claimed for William Beebe, of the New York Zoological Society's oceanographic expedition, who descended 800 feet beneath the sea's surface at Hamilton, Bermuda, in a steel ball with fused quartz windows. The lowest depth previously attained was 325 feet. The steel sphere contained an oxygen supply and was fitted with apparatus for absorbing the exhaled air.

"The world's population is now estimated at more than two billion, Asia having over half of this total."

One Paris hotel will run an airplane taxi service for its guests.

Minaud's Liniment for all Strains.

In Class By Herself

University Of Montreal Graduates
First Woman Doctor With Honors

The first woman to be enrolled in the faculty of medicine of the University of Montreal, affirmed her primacy by outdistancing all her male conferees, and carrying off the highest honors of her class, when she received her degree as a doctor at the convention. She was literally in a class by herself, since the list was headed "Class A—Miss Martha Pelland, with highest distinction," her name standing alone in this category.

With true chivalry, her class mates gave her a rousing ovation when she was called up to receive her degree.

On the same year as Dr. Pelland began her course in medicine, a friend, Miss Juliette Gauthier, enrolled at the University of Montreal, as a law student. Miss Gauthier, who had an excellent record as a student, received the University degree of LL.D. Although in academic

rank, they enjoyed equal status, their position now is another story. Dr. Pelland may, and proposes to practice her profession, which she is entitled to do, without restriction, but her conferees, Miss Gauthier, will be obliged to rest on her University laurels until the long battle to have women admitted to the Bar in Quebec, is won.

Care Of The Eyes

Some Rules Which If Followed Will Keep Them In Good Shape

Avoid very sudden changes from dark to light.
Avoid the use of stimulants and drugs which affect the nervous system.
Avoid reading when lying down or when mentally or physically exhausted.

When eyes feel tired rest them by looking at objects a long way off.
Pay special attention to the hygiene of the body.
Up to forty years bathe the eyes twice daily in cold water.

After fifty, bathe them night and morning in very hot water, then with cold water.
Old people should avoid reading much by artificial light, should be careful about diet and late hours.

Muscular Rheumatism Subdued
When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubs be brisk and continuous until a glow is secured. There is more virtue in a bottle of it than can be fully estimated.

Germany's Monster Land Plane
Germany's largest land plane, the G-38, perhaps the monster aeroplane of the world, landed in Paris recently. Eighteen passengers were on the aeroplane, which can carry forty-five. It is made entirely of metal, has 2,400 horsepower, a wingspread of 150 feet, weighs 24 tons at full load, and can cruise 2,000 miles.

Combs used by the ancient Egyptians were made of bone, ivory or wood.
In Holland there is a river called "y." In China is a city called "y," and in Sweden a town called "M."

Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillette, Puncheon, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound
Solely Prepared by Dr. J. C. Pinkham, 295 State St., Lowell, Mass., U.S.A.
Largest Dispensary, Canada.

W. N. U. 1945

For Young and Old Alike

ENO is so mild it can safely be given to any child, yet it is quite as effective for grown-ups, eliminating from the systems of young and old alike the clogging waste and poisons which cause intestinal absorption . . . unsuspected constipation . . . Refuse substitutes.

ENO'S "FRUIT SALT"

Drifting Bottles

Mariners Trying To Ascertain How Far Bottles May Drift In The Ocean

How far bottles may drift in the ocean is a question which mariners have recently been trying to obtain a satisfactory answer. Two unusually long drifting records have already been reported to the hydrographic office in Washington. In each case the bottle had travelled nearly one-third the distance around the world, or a little more than 7,000 miles.

One bottle, thrown overboard in the North Atlantic near Europe by an officer of the Norwegian steamer "Childa," was picked up near the Marshall Islands. The second, dropped in the same locality from the American steamship "K. R. Kingsbury," drifted 7,000 miles.

The longest bottle drift in the records of the office was made about twenty years ago. A bottle was thrown into the sea on May 31, 1869, and was picked up again nearly three years later on May 19, 1912, after travelling 11,870 statute miles.

Stands Every Test

No Food Has Been Found To Take Place Of Milk

Milk is the food of all foods for mammals of whom man is the chief. Further it is the only food actually designed and evolved by nature to be food for them. It is, of course, merely lack of knowledge to regard milk as not a food because it flows as a liquid. In reality, it is solid in the breast and in the stomach; in nature it is only fluid for a second or two of convenient transit from one to the other.

Ordinarily we do not test our foods. Our diet is mixed, and we have a large factor of safety capital on which to draw during time of deficiency. There are four periods, however, during which food may really be tested; growth, athletic exercise, illness, and old age. And no other food can be suggested which remotely approaches milk when tested under these four conditions.

Will Be Preserved

Grave Of Original Of Immortal "Uncle Tom" Discovered By Weed Inspector

The weed-covered monument over the grave at Dresden, Ontario, of Rev. Josiah Henson, the original of Harriet Beecher Stowe's immortal "Uncle Tom," has been discovered by government weed inspectors. It was stated at the Provincial Department of Highways, Toronto. This relic of the past will be marked in some suitable manner for the benefit of American tourists and students of history.

Rev. Josiah Henson was born July 5, 1789, and died May 5, 1883, at the age of 93 years 10 months and five days, according to the inscription on the monument.

Metalized Paper
M. U. Schoop, of Zurich, Switzerland, has announced that he has developed paper money which will not burn, tear or wear out. His process is described as spraying paper pulp with a protective coating of tin, aluminum or copper. The metalized bank notes are hard-surfaced and are said to be pliable and easily handled.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugstore.

Among the few creatures that may live to be more than a century old, are listed the giant tortoise, the eagle, parrot, raven, the German carp, the white-headed turtle.

Minaud's Liniment checks Colds at once.

Little Helps For This Week

"As the body without the spirit is dead, so faith without works is dead also."—James I. 26.

It is not the wide phylactery. No. It is the prayer, not stated prayers. That make us saints; we judge the tree.

By what it bears. And when a man can live apart. From works, on theologic trust. I know the blood about his heart. Is dry as dust."

The effective life and the receptive life are one. No sweep of the arm that does some work for God, but harvests also some more of the truth of God, and sweeps it into the treasury of life.—Phillip Brooks.

Persian Balm—aluring, provocative and charming. Fragrant and refreshing as a cool breeze in summer. Delightful to use. Creates complexities of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the hands. Persian Balm is a peerless toilet requisite for women who care for charm and distinction. Use it for hands and face.

Water Shrinkage and Ducks
The water shrinkage in ponds, prairie sloughs and shallow lakes in Alberta and Saskatchewan last year amounted to about 20 per cent, and consequently ducks had a very poor year in these provinces.

A clock in an observatory at Sydney, Australia, is operated by sunlight.
Pure affection is a sentiment free from any taint of any kind, and is as rare as pure charity.

The first Chinese who studied medicine abroad received his medical degree in Edinburgh in 1854.

TAKE NO CHANCES WITH BABY!

Cook Her Food in the "Health Ware"

Doctors recommend Enameled Ware for cooking baby's food. It is so simple to clean . . . so easy to keep sanitary and free from germs. It cannot stain. There is no metal surface exposed to the food. Flavors nor odors.

Make sure you get McClary Enameled Ware . . . the Modern "Health Ware". Watch for the familiar McClary label.

WHY BALLOTS WERE SPOILED

In the official count of the election in the Nanton-Claresholm constituency, the returning officer declared 195 ballots rejected, the Nanton News, commenting on the count, set forth the reasons as follows:
"The ballots rejected by the delegates were nearly all marked with an X."

"45 ballots were rejected by the R.O., which had periods placed after the figures."

"21 ballots were rejected because the figures ran into the black part of the ballot paper."

"Five were marked with ink or colored pencil."

"Among other ballots rejected were two marked in Roman numerals, one with parenthesis, some were marked twice in the same space and the remainder were disfigured in other ways or were rejected for a combination of the reasons mentioned above."

"None of these ballots would have been rejected if the instructions to voters posted in the booth had been strictly adhered to."

FERNIE GIRLS BREAK**TWO ALBERTA RECORDS**

Fernie sent four runners to the Blairmore sports on Dominion Day: Miss E. Peters, Miss Grace Lowe, Miss Francis Quail and Miss Janet Brown, under the direction of J. Skilling. They not only captured all prizes in the events, but shattered two of the Alberta records.

So delighted were track fans with the performances of these girls that a special race was run with four special prizes for them. In the race Miss Peters broke the track about three feet ahead of the rest, who were all in a bunch. Miss Brown being awarded second with Miss Lowe and Miss Quail third and fourth.

In the eighty-five yard event Fernie entered two girls: Miss Brown and Miss Quail, who came in first and second respectively. The time was 10 seconds, which set a new record for this distance on a grass track.

In the 100-yard event, Miss Peters was first and Miss Lowe second, the time being 11 4-5th seconds over a heavy grass track. Considering that the Canadian record in 11 2-5th seconds, and the world record 11 seconds flat, this time was exceptionally good for the conditions.

With a little more training these

girls will be the best in the Dominion and no doubt will get a try for the Olympic races. They should be given every encouragement possible for they have the makings of great runners.—Ferne Free Press.

ESCAPES FROM FLAMING AUTO

MICHEL, B.C., July 4.—Quite an exciting time was experienced by the members of Michel's First A'd team on Tuesday night, July 1st.

The party was returning home from Kimberley, where they had taken part in the first aid competition, and when about four miles out from Fernie ran out of gas. Some two gallons were obtained from a passing car, but the party got only two more miles when they were stalled again.

One of the party was picked up and taken to Fernie, where four more gallons were obtained; then the journey back to the ambulance.

The work of filling the tank began, and someone asked for a light to see the hole, when—bang!—and the flames shot 20 feet in the air. People ran, but Mike Makuk, driver of the car, stayed with it and closed the doors, to keep the wind from blowing right through, unknowing that R. Commaire was inside.

This member of the party banged open the doors, rolled down the embankment close to the Elk river, but escaped injury. The fire was extinguished and after a brief pause the party started on the homeward stretch.

C. N. P. TENNIS**TOURNAMENT RESULTS**

Following are the results of the annual tennis tournament, held by the Crow's Nest Pass Lawn Tennis Association at Coleman the early part of last week.

Ladies' open singles—Mrs. Kerr defeated Mrs. Lirdee, 6-0, 7-5.
Ladies' open doubles—Fergie and McIntosh defeated McLeod and McDonald, 6-2, 6-3.

Mixed open, doubles—Fergie and Fergie defeated Pickney and Kerr, 7-3, 6-2.

Men's open doubles—Lindoe and Fergie defeated Shone and Balloch, 7-3, 6-2, 6-1.

Men's open singles—Balloch defeated Fergie, 6-4, 6-3, 6-0.

Junior Men's open singles—Balloch defeated McPhail.

H. G. MacDonald, of Edmonton, has received the government contract for a second course of graveling on the highway between Nanton and Macleod, at 13 1/2 cents a yard, which is the lowest price ever secured by the department. Last year's prices ranged well over 20 cents.

Fred Clearhue, who has spent the past three months at Hughton, returned home on Friday. He left Saturday to spend a few weeks with Mrs. H. P. Clearhue, who is with Mrs. M. Pitcher at Chic-A-Dee Lodge, Regina Beach, for the season.—Regina Leader-Post.

**BLAIRMORE UNITED CHURCH**

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services, Sunday, July 13th, the pastor in charge.

10 a.m.—JUNIOR SCHOOL.

11 a.m.—SENIOR SCHOOL and PUBLIC WORSHIP.

The Junior choir will have charge of the music during the holidays.

The evening service is discontinued during July and August.

DAILY VACATION BIBLE SCHOOL

The following questions have been asked, in connection with the vacation school, July 21st to August 1st, 9 a.m. to 11 noon, daily.

Do we have to belong to your Sunday school? No, any child in town may come if 4 years and over. The school and its teaching is absolutely non-denominational.

Do we have to pay? A collection is taken daily, parents sometimes give donations, the Elks, the Knights of Pythias and the Pythian Sisters have all given donations in the past. In this way the school is financed without a fee. Occasionally, in the senior grade, children are asked to bring a small sum toward the cost of certain types of handwork. This, however, is optional, other handwork may be taken.

What is done with the handwork? Each child makes something for someone else which is given away. Each child makes several articles for 'self or mother.' A few things are made for sale on the closing night.

Rev. Norman Whitmore was inducted as pastor of Pincher Creek United church on Thursday last, succeeding Rev. Mr. Villet. Rev. J. W. Smith, B.D., of Blairmore, read the induction ceremony.

Workmen commenced operations on Wednesday morning, laying the cable for the new lighting system along the main street of Macleod. When completed, in about a week or ten days, the street will be brilliantly lighted with 44 lights, on 22 handsome 2-light metal standards, instead of 8 or 10 open lights as at present. The operating of these lights is on the automatic clock system, which requires no personal attention.—Macleod Times.

SALVATION ARMY, COLEMAN

Sunday, 11 a.m.—Holiness meeting; 2 p.m., Directory class for the young people; 2:30 p.m., Company meeting; 7 p.m., Salvation meeting.

Sir Arthur Conan Doyle, one of England's foremost public men and creator of "Sherlock Holmes," died on Monday at the age of 71.

One of our exchanges remarks: "Just keep cool and you will not mind the heat. This is a very excellent rule. If we talk about the heat, and worry about it, we only increase our discomfort. Summer is short enough in our province."

The NEW Firestone BALLOON for Speed with Safety

Most Miles
Per Dollar

Firestone Tire and Rubber Company of Canada, Limited
Hamilton Ontario

FIRESTONE now announces another new tire—again built in advance of today's car requirements. This new Firestone Heavy Duty Gum-Dipped Balloon surpasses in strength, in toughness, in traction and in wear-resistance, any tire that even Firestone ever built before.

This new tire provides a wide margin of safety at any speed on any road. It has a deeper tread, extra sidewall thickness and scientific construction of alternating plies of live cushion gum and Gum-Dipped cords. Two extra plies of Gum-Dipped cords just beneath the tread absorb road shocks—Firestone engineering and design give you a wide margin of safety for fast driving.

At every Firestone Dealer's, you can recognize the new Heavy Duty Balloons by their magnificent construction and by the gold stripe that stands out against the ebony black sidewalls. See your nearest Firestone Dealer to day.

COWLEY HAPPENINGS

Rev. Mr. Crisp has taken up residence in town.

Clair Snyder, of Blairmore, was in town on Sunday.

Miss Doris McEwen has accepted a position as stenographer.

Miss Netta Swart is spending a holiday in Lethbridge with friends.

John McLeod, of Lethbridge, was a visitor to Cowley on Monday.

Mr. and Mrs. Harold Cleland were visitors to Lethbridge on Saturday.

Miss Bertha Kaye has returned from spending a few days in Calgary.

Jack Cowin has gone to Vauxhall, where he will spend the summer vacation.

Miss Evelyn Kaye, of Bellevue, is holidaying with Miss Edith Kaye at present.

Billie O'Brien, of North Fork, is sick with appendicitis, in the Hillcrest hospital.

Mr. and Mrs. Gordon Welsh, of Lundbreck, were visitors to town on Saturday.

The George Porter family have gone to Black Mountain to spend the season's holidays.

Hal. Burn is on the sick list, sorry to say. He has been confined to his bed for several days.

Miss Edith Murphy is holidaying in Corbin, B.C., with Mr. and Mrs. Lionel Peet and friends.

Miss Nellie Gunn is holidaying with Mr. and Mrs. J. Milvain and family near Lundbreck.

Mr. and Mrs. Black, accompanied by Mrs. Fred Tustian, motored to Lethbridge and return on Friday.

Mrs. George Porter has returned from Hillcrest hospital, where she has been under the care of Dr. Rose.

Farmers here are again asking for rain. We sincerely hope that their wishes will be granted, as we need it ourselves.

Mrs. Robert Littleton has gone to join her husband near Waterton Lakes, where they will reside for the summer months.

Mr. and Mrs. William Wycliffe, accompanied by their daughter, Miss Agnes, were Saturday visitors to Pincher Station.

Mr. and Mrs. Russell Smyth and family, and Mr. and Mrs. Albert Cleland and family, were visitors to Hillcrest on Tuesday.

Miss Nellie McWilliams, of the Claresholm teaching staff, is spending her holidays at the home of her parents, north of Lundbreck.

Mrs. Arthur Brockwell, accompanied by her daughter, Mrs. Turner, and infant, has returned from a few weeks' holidays in Calgary.

Word has been received from Cal-

gary, saying that a baby daughter has arrived to Mr. and Mrs. Rollo Burn, of Lundbreck. Congratulations.

Mrs. Scott, old-time Cowley resident, has returned to the district. She and her brother James intend taking up future residence on the South Fork, where they will engage in ranching.

Mrs. E. Cowin has gone to Calgary, where she will consult a doctor in regard to her health. She will also pay a visit to her daughter, Mrs. Ralph Easterbrook, and family. On her way up, she stopped off at Vauxhall to pay a visit to her sons there.

BASEBALL

An item of considerable interest to the baseball fans and the people of Fernie in general, is a wire received by Ward Thomas, stating that the Colored House of David baseball team would play a double header in Fernie on Sunday, July 20th.

For the past three years an effort has been made to have one of the House of David teams play in Fernie, and as these boys are considered the best colored team now touring the country, we are indeed fortunate in being able to secure them.

A team consisting of the very best baseball talent in the district will be gotten together to represent Fernie and the fans can be assured of a game well worth seeing.

It is to be hoped that everyone will arrange to be in town on that date to attend.—Fernie Free Press.

A steel plant, to cost in the neighborhood of \$25,000,000, is proposed for Vancouver.

Send G. G. COOTE Back to Ottawa

He has represented the people of the Macleod Constituency with courage and ability.

Mr. Coote
has
never
been
false
to the
confidence
placed
in him

Mr. Coote
has
represented
you
well
for
nine
years

Mr. Coote deserves credit for:

- Reduction in tariff on motor cars and trucks.
- Amendments to the Grain act.
- The appointment of a new Board of Grain Commissioners.
- Old Age pensions.
- Advocating a National Highway.
- He was largely responsible for government assistance for the movement of coal from the Crows' Nest area to Manitoba.
- Macleod Federal Constituency Association of U.F.A.

Summertime Hostesses and Summertime Guests

all appreciate the purer quality and enjoy the finer smoother flavor of

CALGARY DRY GINGER ALE

At the club or at home—the game or the dance—this favorite beverage gives a refreshing keenness to summertime playtime hours. It's "The Finest Ginger Ale of Them All"—serve it on every occasion.

'Fresh from the gardens'

A World Subject of Discussion

The whole civilized world is discussing one subject today—Tariffs. And in those countries which are the more highly organized, where the standard of living is highest, where the most modern and efficient methods of production, both in agriculture and in industry, prevail, the discussion is most keen.

For over a year and a half the United States has been in the throes of a nation-wide struggle over the new Hawley-Smoot tariff, the effect of which is to raise duties against all other countries to a height never before attained.

In Great Britain, Lord Beaverbrook, supported by his fellow publisher, Lord Rothermere, is engaged in a great campaign of publicity with the object of swinging the British people into support of a new fiscal system, based on the idea of free trade within the Empire, or as near an approach to it as possible, coupled with tariffs against all foreign countries. Even Premier Baldwin still maintains his stand in favor of what are termed "safeguarding" of industry duties, coupled with a referendum on the question of placing a tax on food supplies in order that a preference may be given to the overseas Dominions.

In France, in Germany, in Italy, and in other European countries feelings akin to bitterness have developed against the United States because of the higher duties that country has levied against the world. All these nations, heavy debtors to the United States, feel outraged that the only means whereby they can pay their war debts to the U.S., namely, by exports to that country, is thus largely closed to them. Talk of reprisals is general, and in a number of instances higher tariffs have been imposed on American products and manufactured goods in which the United States is a large exporter.

The Commonwealth of Australia, finding itself over-burdened with an extremely heavy national debt, and in need of larger revenues, has raised its tariff to new heights, and in regard to certain articles has entirely prohibited their importation.

In Canada, the recent Budget of Hon. C. A. Dunning, imposing countervailing duties on a specified list of articles against the United States, raising other duties against that country, and increasing the scope of the preference accorded to Great Britain and other parts of the Empire, is now a daily household topic all over the Dominion, and the outstanding issue in the general election campaign now in progress.

Without presuming to offer any opinion on the relative merits of High Tariffs, Low Tariffs, or no Tariffs at all, because to do so would be to enter into the realm of partisan discussion, and such discussion is rigidly barred in this column, the question may well be asked: What is to be the outcome of this world tendency on the part of practically all nations to erect trade barriers one against each other, and each one against all others?

Certain facts must be recognized and admitted by all. It cannot be denied that Tariffs do engender hard feelings and suspicions between nations, and when such feelings develop, no matter what the cause, there is always great danger of the ensuing bitterness becoming gradually more intense, and the opposing peoples brought to a frame of mind where they are less ready to co-operate in other matters for the common good of all. In a word, international goodwill is placed in jeopardy, and a situation created where some little spark might easily start a mighty conflagration, another World War in fact.

But even should such a dire calamity not result, what is going to be the economic effect on the world, and on each separate nation? If one and all pursue the policy of erecting trade barriers each against the others? The logical end, of course, would be the complete cessation of all international trade. With each nation refusing to buy from other nations, or at least making it as difficult as possible to do so, it would inevitably follow that no nation could sell to any other nation, or to a very limited extent. This is a situation that must be feared, because it is looming up on the horizon in view of the economic and fiscal policies now under such wide discussion.

If nations decide not to buy largely, or at all from other nations, it follows, we repeat, that there will be no buying nations to which other nations can sell. Will this redound to the advantage of any nation? Take the United States as an example. If it refuses to buy from others, and those others in return refuse to buy from it, will the United States be better off? Can its own people consume the enormous output of its factories and fields? The answer, of course, is "No." Then the inevitable result is less production, which in turn means less employment, and decreased employment means decreased buying power, and that means a still further decrease in consumption, production, employment, buying power.

It means further matters for the nations that will not buy goods made in the United States, the manufacturers in that country will erect branch factories in foreign lands, and employ the people of those countries. Thus these foreign people will secure employment at the expense of the United States worker.

And if other countries follow the same policy and do likewise, how much better off will any one of them be than if they continued to raise those crops for which by nature they are best fitted to produce, or manufacture largely for world trade, and each distribute freely one to the other?

The need of the hour in all lands would appear to be sound thinking and sane consideration of basic economic principles, divorced from purely nationalistic desires and ambitions.

Keep Outdoors In Summer

Get the outdoor habit this summer. It improves both the health and the temper. Clothes can be mended on the porch, peas can be shelled and potatoes peeled out in the open air quite as efficiently as inside. You can even take your lunch tray outside with a few extra steps and eat de luxe in the great outdoors.

Not only has King George of England worn the same crown for 20 years, but it seems he hasn't had it rebuffed or the band changed.

You probably think you have made your last worthless investment, but you haven't.

Farm Loans Act

Six Canadian Provinces Have Taken Advantage Of The Act
Six of the provinces of Canada—Nova Scotia, New Brunswick, Quebec, Manitoba, Alberta and British Columbia—have taken advantage of the Farm Loan Act of Canada, securing long term mortgage credit. At the end of March loans to the amount of \$4,251,000 had been approved. In company with the Canadian and Provincial Governments and resolves a share of the profits. Loans are made on first mortgages on farm lands and farm buildings.

A REAL NERVE TONIC

Is a Bountiful Supply Of Rich Health-Giving Blood

Sufferers from nervous debility and themselves tired, low-spirited and unable to keep their minds on anything. They are likely to be unable to perform their everyday duties.

Doctors of the nerves with sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. To secure this rich, red blood Dr. Williams' Pink Pills should be taken. Enriching and purifying the blood is their whole mission. In bed for seven months; extremely nervous had no color. Nothing I tried seemed to help. I began Dr. Williams' Pink Pills. My condition at once improved and today I am well and able for anything without fatigue or trouble.

You can get these pills from any medicine dealer or by mail from Dr. Williams' Pink Pills, 100 North Main Street, Brockville, Ont.

Saskatchewan Appointment

P. C. Ward Now Chief Clerk Of Natural Resources Department

Official announcement was made recently of the appointment of P. C. Ward, Regina, as chief clerk in the Provincial Department of Natural Resources. Mr. Ward is also a member of the public service commission, and in the absence of P. H. Shelton, is acting chairman of that body. Previous to the appointment of the commission, Mr. Ward was civil service commissioner for a number of years.

Use Miller's Worm Powders and the battle against worms is won. The powders correct the morbid conditions of the stomach which nourish worms, and these worms, in turn, cause cannot exist after they come in contact with the "medicine." The worms speedily evacuate their refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Saskatchewan Pool Elevators

Handled 87 Per Cent. Of All Pool Grains Delivered In Province

During the present crop year Saskatchewan Pool Elevators Limited have handled 87.2 per cent. of all pool grain delivered in this province, according to an official report. This is the highest percentage that the organization has handled in any crop year to date.

Red Clover Seed Record

The production of red clover seed in Canada, in 1926, was the largest in the past quarter of a century. One of the most important legume crops, red clover for successful growing depends on hardy seedling seed. Special attention is being paid by the Seed Branch of the Dominion Department of Agriculture to the growing of registered red clover seed.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

Canada Sound Financially

Canada was described as the most sanely optimistic country he had ever seen by Sir William Letts, British automobile executive in an interview given at Toronto. He had visited the United States and the countries of Europe and had found Canada in what he believed to be healthier financial condition than any of the others.

Relieve Insect Bites!

PAIN STOPPER LIKE A FLASH!
Pain stops in 10 seconds. Nothing better. "Pain Stopper" does not sting, pain is relieved. Pains vanish. Avoids knife, all druggists.

Weather Service For Fliers

Conditions Made Much Safer For Adventurous Air Explorers

The non-stop "planes which may leave Europe to try the hitherto almost certain death westward flight across the North Atlantic, have a new aid. This is new weather service, started in May, 1926, that plans the first complete ocean forecasting. In its files are pictures that explain better than words, why but one westbound non-stop plane has crossed the North Atlantic, while eight have made it in the other direction.

Take, for illustration, one of these pictures, the weather map of the North Atlantic, on November 25 last, made during preliminary organization. The lines that mark the course of the winds trace a vast shape, that looks like a devil fish filling the ocean from Newfoundland to Ireland.

Its eyes are two whirling cyclones set one-third the distance out from each shore. Its tentacles swing southward to the Azores, and north nearly to Greenland. On the iting which swallowed the westbound fliers without trace, from the French ace, Nungesser, to Princess Loewenstein-Wehrheim, and the Hon. Elsie Mackay, is apparent. It is a steady rush of air toward Europe.

Though from locality to locality, its direction changes, yet its average is always into the teeth of the westbound "plane, with a range from 100 to 150 miles per hour. It flows like the Gulf Stream, centering above the stream, though immensely wider, and subject to swings of nearly 1,000 miles. Westbound planes bucking even the mildest of these currents, were cut down 10 miles an hour, and often far more. These figures must be multiplied by two to obtain the actual disadvantage.

The effect gives the westbound flier a far wider ocean to cross, as if the American coastline were pushed back nearly to Chicago. The new ocean forecasting can warn of tempests that sometimes develop from nothing even during the few hours of a crossing "plane takes.

The resulting charts are made by Dr. James Kimball, of the New York "weather bureau." For 35 years, he has worked voluntarily extra hours on ocean weather, as a hobby. E. B. Smith, an expert on forecasting, division, chief of the forecast division in Washington, made two trips to Europe, in getting the work started.

Alberta Gas Fields

Three Hundred Million Cubic Feet Wasted Daily, Being Burned In The Air

Oil and gas wells drilled in Alberta fields have combined gas capacity of approximately 560,000,000 cubic feet daily. This figure includes wells that have been capped.

This figure is made up as follows: Turner Valley, 300,000,000 cubic feet wasted daily, burned in the air. From 15,000,000 to 20,000,000 cubic feet used daily.

Rogers' Imperial Well: This capped well is believed capable of producing 60,000,000 cubic feet daily.

Burditt and Bow Island: This field, with 19 wells capped, is believed capable of producing between 50,000,000 and 60,000,000 cubic feet daily.

Medicine Hat Field: This produces 4,000,000 cubic feet daily, practically all of which is used.

Viking field, near Edmonton: This field has a capacity of 75,000,000 cubic feet daily. There are 21 wells.

Kinsella field: This field has a capacity of about 30,000,000 cubic feet daily.

Wainwright, Ribstone and other small gasers throughout the province have a combined capacity of about 25,000,000 cubic feet daily.

Books Can Be Decorative

The decorative use of books is greatly overlooked in many homes. Books, aside from being a concrete evidence of alert mind, are going on in a home, can be capitalized into becoming an important part of an interior decorating plan. If you have much space, walls of low book shelves are extremely satisfactory, to balance a fireplace or an overstuffed divan, table and lamp unit.

The first sheet of paper is stated to have been made from the bark of a mulberry tree in the year 76.

Mexico's metal production is increasing.

Alluring Advertising

Poster Issued By Light Dragons In 1897 Made Attractive Reading

Have the military authorities lost the art of attractive advertisement? Most people think that the twentieth century is much superior to the nineteenth so far as advertising is concerned, but there are no modern recruiting posters that can compare with a notice issued on behalf of the Light Dragons in 1891, and which was referred to by the Secretary of State for War recently. "You will be mounted," this notice informed potential recruits, "on the the finest horses in the world, with superb clothing and the richest accoutrements.... your society is courted; you are admired by the fair." It went on to hold out the alluring prospect of marriage with "a buxom widow" or "a rich heiress," which rendered the Light Dragons' situation "truly enviable and desirable."

Recipes For This Week

(By Betty Barclay)

SUMMER SALAD COMBINATIONS

Here are a couple of simple recipes for summer salads, that should come in handy at this time. Liberal servings of such salads will enable you to eat less of the heavy foods, and thus put yourself in better position to stand the heat of summer.

Cherry Delight: Arrange three or four large orange sections around edge of a lettuce cup by cutting a small head of lettuce in two and scooping center from one half. Fill centre of cup with sliced cherries. Serve with mayonnaise or boiled dressing.

Orange and Strawberry: For each serving use one slice pineapple, quartered; and three or four orange slices, halved. Garnish with four large, ripe, unhalved strawberries. Top with a marshmallow half.

A DELICACY WITH FRESH BERRIES

1 package vanilla junket.
1 pint milk.
Strawberries.
Powdered sugar.

Make junket according to directions on package. When ready to serve, dust berries with powdered sugar and fill up the glass.

Fruits like orange, pineapple and strawberries should not be put into the milk when making junket, as the fruit causes it to whey. Crushed and sweetened, these fruits make tasty toppings.

Blackberries or raspberries may be put into the desert, also canned or preserved berries, peaches or other fruits.

Minnard's Liniment gives quick relief.

Rivals Boy's Pocket

Handbags carried by women are beginning to rival the small boy's pocket for variety of contents. One bag examined recently contained a handkerchief, bundle of letters, diary, mirror, comb, purse, note-case, stocking-mending outfit, cigarette case, lighter, powder-case, lipstick, keys, patterns of cloth and a shoe-lace.

Cut Down Food Waste

...by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

REVIEW WORK OF LABOR MINISTRY IN GREAT BRITAIN

London, Eng.—England's second Labor Government has completed a little more than one year in office in that period it has kept parliament working long hours turning out legislation embodied in a wide social programme.

Protection of the consumer against profiteering, the removal of certain injustices under the Widows Pension Act, an improvement in the unemployment insurance ("dole") scheme, the raising of the school-leaving age to 15 years—with the right to go immediately on the dole if employment is not readily obtained—the shortening of the miner's working day, and reorganization of the mining industry, are a few of the domestic issues which have been the target for the Labor Government.

In the international sphere there has been a renewal of diplomatic relations with Russia and the signing of a preliminary trade agreement, ratification of the government's signing of the optional clause with respect to the League of Nations, withdrawal of British troops from the Rhineland, a new agreement on the Anglo-Egyptian problem, the reparations settlement at The Hague, and finally the removal of real friendship with the United States and the subsequent three power agreement for the limitation of naval armaments.

All of these achievements and aims show the first year of the second MacDonald Government to have been one of great activity over a wide front despite its minority position in parliament which forces the Laborites to depend upon Liberal votes to keep them in power.

Only a vast problem of unemployment and the Indian troubles have not responded fully to the Labor government's administration.

One suggestion has been made that the government will introduce a bill providing for direct borrowing to the extent of \$100,000,000 as an effort to help the unemployment situation. There is also the suggestion that the number of contributions, now amounting to about \$7.50 over a period of 50 weeks, before an insured person can receive benefit of the dole upon losing his job, may have to be reduced.

These latter suggestions are, however, political talk, and may not materialize.

Air Service Discussed

British Minister Urges Dominion To Develop Civil Aviation

London, Eng.—The office of the secretary of state for the colonies was one of the first to be visited in London recently, with colonist representatives and officials of the department gathered to hear and discuss the views of Lord Thomson, secretary of state for air.

Dealing with the subject of civil aviation, Lord Thomson urged the colonies to develop light aeroplane clubs and also advocated the establishment of aerodromes under the control of the governments.

Frederick Montague, under-secretary for air, emphasized the importance of recognizing the West Indies as a link between Canada and South America. If there was a possibility of starting a service between Canada and the West Indies it would be an important part of the direct route to South America.

Favor Empire Trade

London, England.—Representatives of leading British banks, including the Bank of England, and Messrs. Grenfell and Company, at a meeting here, passed a resolution in favor of reciprocal trade agreements and an open market between the nations constituting the British Empire. They advocated the elimination of duties on all imports from foreign countries.

Announce Promotion

Ottawa.—Promotion of Lieut.-Col. W. G. MacFarlane, V.D., to the rank of colonel, to command the "Fifth Mounted Brigade, of Calgary, Alberta, was announced recently at the Department of National Defence. He succeeds Col. H. C. A. Hervey, V.G.M.D., who has been transferred to the reserve of officers.

Tenders Received

Ottawa, Ont.—Tenders have been received for the construction of additions to the government elevators at Moose Jaw and Saskatoon. The names of the successful tenderers for the contracts will not be made public by the Department of Trade and Commerce until an order-in-council ratifying the awards has been passed.

W. N. U. 1245

Diamond Jubilee Celebration

Great Interest Shown In Event To Be Held In Manitoba on July 15

Winnipeg, Man.—One of the most interesting features of the Diamond Jubilee celebrations to be held throughout Manitoba on July 15, will be the social reunion among the early settlers. There will be general recognition of the fact that this province would never have amounted to much if it had not been for the efforts of the men and women who came first. Appropriately enough these men and women, or at least those of them who are taking part in the celebrations, will "come first" in public esteem. They will be honored according to their merit, which means that everyone will be a witness to their achievements.

Some of the towns and villages are making a feature of the "home-coming." Mrs. and there is much to be said for that phase of the demonstration. If all the Manitoba people who left to make their homes in other parts of the world were to come back for the "doings" on July 15, a new and brighter chapter in our history would be written. As many as do come back will arouse enthusiasm of a special sort. Manitoba men and women carry with them wherever they go the distinct stamp of their satisfactory experiences in the province, and their welcome back will include more than the usual flavor of that western hospitality which is a theme for poets and writers. In addition to the rejoicing over our material advancement there will be the whole-souled gratification at meeting once more those who were largely responsible for that advancement.

It is a most question whether the men and women of today can understand the "stunt" that was apparent in the pioneers. A well-known western politician whose name is almost a household word in thousands of homes on the prairies, uses an intense brand of emphasis—his long suit—on the subject that this age is soft and spineless.

He points out how many and how long were the struggles of the early settlers, and there is no doubt that he knows what he is talking about, for he was one of them.

He does not believe this year; discussion is likely to be carried on until the "discussers" run out of material. A diplomatic judgment on the matter would admit that there was a great deal to be said on both sides. The men and women of the 60's and 70's—the real pioneers—undoubtedly faced and overcame great hardships. Their resources, except in determination and intelligent application, were few, while their difficulties and disappointments were numerous. Their spirit carried them through and helped them to establish a new civilization on the banks of the Red River.

Saskatchewan's Coal

Production Higher

But All Canadian Output This Year Shows Decrease

Ottawa, Ont.—Coal mined in Canada during the first quarter of 1930 amounted to 3,971,808 tons, a decrease of 14 per cent. from the output of the same period in 1929. Compared with the first quarter five-year average, there was a decrease of approximately two per cent. during the period under review. Bituminous coal produced during January, February, and March, totalled 2,704,147 tons, bituminous 1,622,612 tons, and lignite 1,105,495 tons. Saskatchewan was the only province to record an increase in output over the first quarter of last year. Figures were published at the Dominion Bureau of Statistics.

Alberta's output of 1,639,324 tons was 41 per cent. of the total Canadian production and recorded a decrease of 9.5 per cent. from the first quarter five-year average. Nova Scotia's total of 1,513,415 tons and Saskatchewan's total of 174,531 tons were respectively, 11 per cent. and 37 per cent. higher than the quarterly five-year average. British Columbia mines produced 581,830 tons, a decrease of 14 per cent. from the 1925-1929 first-quarter average. New Brunswick's production was slightly higher than the five-year average.

Discuss Indian Situation

London, Eng.—Leaders of all British political parties conferred recently on the situation in India. It is understood they were mainly concerned with preliminary arrangements for the Indian Conference, in London, next October. No statement was issued.

Train Wreck In Russia

Moscow, Russia.—Twenty-two persons were killed and 28 injured in the terrible smashup of a train near Leningrad. The engine and several passenger coaches were derailed, and a passenger train on the wrong track.

Start Thirty-Five Day Tour

Treaty Money Carried To Northern Indians By Plane

Ottawa, Ont.—Carrying \$25,000 in treaty money to the Indians of the far north, two cabin monoplane, piloted by officers of the Department of National Defence, took off July 2, from Rockville Aerodrome. The planes will take H. N. Atwey, of the Department of Indian Affairs and W. B. Cain, Deputy Minister of the Ontario Department of Lands and Forests, on a 35-day tour of the North to carry out their duties as Dominion and Provincial Commissioners of Indian treaty number 9.

Valuable Discovery

Flin Flon Lake Bed Said To Be Rich With Gold

The Pas, Man.—Copper mineralization carrying high values of gold has been found on the bed of Flin Flon Lake, recently drained, according to a statement issued by R. E. Phelan, vice-president of the Hudson Bay Mining and Smelting Company. Extent of the mineralization is not known, it is stated, but exploration work is going ahead.

No definite date has been set for start of production at the mine, it was announced.

Kingsford-Smith Honored

Given Bank Of Wing Commander By Australian Government

Canberra, Australia.—Announcement has been made in the House of Representatives that Squadron Leader Kingsford-Smith had been promoted to the rank of wing commander in recognition of his westward trans-Atlantic flight.

Premier Scullin said that the government was anxious to give him some greater honor to mark his achievement, but that the conferring of titles clashed with Labor policies.

HOUSE OF LORDS HAS APPROVED RESOURCES ACT

London, Eng.—The British North America Bill, an amendment to the British North America Act embodying the agreements entered into between the Canadian government and the provinces of Manitoba, Saskatchewan and Alberta, for the return of the natural resources to those provinces, as well as the agreement for the return of certain crown lands to British Columbia, passed through all stages of the House of Lords without opposition.

The British Government is hastening passage of the bill in view of the celebration of the 60th anniversary of Manitoba's entry into confederation on July 15 next.

In moving passage of the bill, Lord Parmoor, Lord President of the council, explained the bill was merely intended to place the younger provinces of Canada on the same footing as the older ones.

Lord Parmoor said he wished to convey the government's very best wishes to the Province of Manitoba on the forthcoming happy anniversary, expressing the hope that Manitoba would have continued prosperity.

Winnipeg, Man.—Proclamation of a public holiday in Manitoba, July 15, will be made shortly by an order-in-council by the provincial government. The day marks the celebration of the 60th anniversary of Manitoba's entry into Confederation, as well as the date of return of natural resources to the province.

New Canadian National Steamer

Above is shown S.S. Prince Henry, the latest acquisition to the Canadian National fleet on the Pacific Coast. S.S. Prince Henry, which has arrived at Vancouver, is a tribute to the shipbuilding art of British yards. The vessel is 384 feet in length and fitted in the most modern way. The passenger accommodation, designed for the Pacific Coast tourist traffic, is ultra modern with rooms for 354 first class and 70 second class passengers. The vessel will have a Board of Trade license to carry 1000 day passengers. S.S. Prince Henry is the first of three new ships which will start service this summer. She will ply between Vancouver and Sitka during the summer months, while her sister ships S.S. Prince Robert and S.S. Prince David will inaugurate a tri-city run between Vancouver, Victoria and Seattle.

CIVIL SERVICE COMMISSIONER

Escapes From Burning Plane

Pilot Lands On Lake and Swims To Shore

Sioux Lookout, Ont.—Al Cheeseman, famed as a pilot on Sir Herbert Wilkins' Antarctic expedition, missed death by only a moment when his plane took fire over northwest Ontario's forest country, according to word reaching here. The flyer, who is planning a flight to Tokyo, brought his burning ship to the surface of a lake, dove into the water and swam to shore, unharmed.

The accident occurred in the vicinity of Millidge, Ont., 40 miles west of Sioux Lookout, on the Canadian National Railways. En route from Sioux Lookout to The Pas, Man., Cheeseman's plane developed engine trouble while he was speeding along at 1,000 feet. As he prepared to bring his piston-equipped plane to a landing, the engine started again, back-fired, and the oil on the exhaust pipe ignited.

Flames spread in a flash to the body of the Fairchild machine and Cheeseman started a perfect landing on the surface of a nearby lake.

Flames spread in a flash to the body of the Fairchild machine and Cheeseman started a perfect landing on the surface of a nearby lake.

Escapes From Burning Plane

Pilot Lands On Lake and Swims To Shore

Sioux Lookout, Ont.—Al Cheeseman, famed as a pilot on Sir Herbert Wilkins' Antarctic expedition, missed death by only a moment when his plane took fire over northwest Ontario's forest country, according to word reaching here. The flyer, who is planning a flight to Tokyo, brought his burning ship to the surface of a lake, dove into the water and swam to shore, unharmed.

The accident occurred in the vicinity of Millidge, Ont., 40 miles west of Sioux Lookout, on the Canadian National Railways. En route from Sioux Lookout to The Pas, Man., Cheeseman's plane developed engine trouble while he was speeding along at 1,000 feet. As he prepared to bring his piston-equipped plane to a landing, the engine started again, back-fired, and the oil on the exhaust pipe ignited.

CROP SEASON IS BACKWARD ON THE PRAIRIES

Ottawa, Ont.—Generally throughout Canada the crop season is backward, and in many of the important agricultural regions moisture has been limiting both stands and growth, according to the weekly crop report issued by the bureau of statistics. Conditions have changed slightly for the better in the prairies, but timely soaking rains will be needed in July.

However, there is still a strong tendency for rainfall to heighten the advantages of crops in Manitoba and the park belt, which have been most favored throughout June, while the specialized wheat-production regions in Central Saskatchewan and Southern Alberta are not receiving enough moisture to enable them to recover from previous damage by drought and wind and rust.

Moisture is needed at present to fill the winter wheat. Outcrop damage, which has been the heaviest for some years, is now confined to scattered late-sown crops. There has been damaged crops in all three provinces, but is less than usual up to this date. The wheat crop, which was seeded more than a week earlier than last year, is now generally more backward than last year. Manitoba conditions are still favorable, and good crops are almost assured in most districts. Only the southwest corner reports the need of rain.

Saskatchewan conditions vary greatly, but an improvement is noted in some regions of the north and east, while the central and southern districts, more specialized in wheat production, are still complaining of drought. The rains are barely able to keep the crop up to the average promise.

New Ruling Is Welcomed

Bonded Grain In United States May Be Held Over For One Year

New York.—The port of New York authorities recently pointed out that "a serious threat to the grain commerce" of the port of New York has been removed by a new administrative provision in the tariff law permitting Canadian grain to remain in transit one year before exportation. "General concern was manifested by port officials and the grain trade over a ruling in November by the commissioner of customs requiring railroads to dispose of all bonded grain in transit within ninety days after receipt."

Enforcement of this decision, it was felt, would have been ruinous to the grain trade and an accumulation of bonded grain would have been dumped upon a market with no export demand. A committee representing the port officials and the grain trade over a ruling in November by the commissioner of customs requiring railroads to dispose of all bonded grain in transit within ninety days after receipt.

Find Radium-Bearing Ores

Impossible To Estimate Extent Of Deposits In Manitoba

Winnipeg, Man.—Discovery of radium-bearing ores in the area east of Lac Du Bonnet is stated to have been made by employees of the Winnipeg River Tin Company. Dr. T. Packard, president of the firm, states that uraninite has been traced for more than 100 feet in feldspar and that examinations have proved the product strongly radio-active. Owing to irregular nature of the deposits, he says, it is impossible to estimate the extent of the deposits.

New Liquor Board Ruling

Soldiers' Clubs In British Columbia May Sell Beer

Victoria, B.C.—Sale of beer by the Soldiers' Clubs, the most important departure undertaken by the government in the handling of the liquor question since the inauguration of the new liquor laws, will be met by the cabinet formally allowed the liquor board to license "Soldiers' Clubs" to sell beer. The Liquor Act amendments passed by the legislature in March.

Purchase Wolfe Helles

London, Eng.—Quebec House, at Westernham, together with the relics of the famous General Wolfe which it contains, has been purchased by a committee headed by Sir Campbell Stuart and will henceforth be held in trust as national property.

Local and General Items

Macloed Elks are holding their annual carnival, July 16th to 19th.

Dr. J. Olivier and Robt. Gray were business visitors, to Creston at the end of last week.

Mr. "Bob-the-Tailor" Eastwood, of Coleman, is paying a visit with relatives at Cleveland, Ohio.

J. F. Rudnicki, who has been residing in Calgary, returned to Fernie today.—Ferne Free Press.

Mrs. J. F. Peterson, of Great Falls, Montana, is spending her vacation here with her father, Mr. D. R. McKay.

Miss Jeannie Cameron, who is teaching near Athabasca, is spending her vacation with her mother at Burmis.

A. G. Baslin has been nominated Liberal candidate at Lethbridge. Mr. Baslin is president of the Lethbridge Board of Trade.

The local Oddfellows and Rebekah lodges held their annual memorial service in the Lodge Hall on Sunday afternoon last, in joint session.

A large number of baseball fans turned out yesterday to witness the two-game tournament between the Pass All-Stars and the Texas Giants.

Mr. W. L. Rippon, manager of the Canadian Bank of Commerce at Coleman, left the early part of the week on a five-week motor vacation trip as far as Woodstock, Ontario.

P. Colombo, proprietor of the People's Bakery, has just installed an automatic electric soda carbonator, to ensure fresh and full strength soda water at all times.

Hon. Dr. R. J. Manion, of Fort William, formerly minister in the Meighen cabinet, will address a meeting along with and in the interest of "Mickey" McLean, the conservative candidate in West Kootenay federal constituency.

The two daughters of K. G. Craig arrived from Blairmore Sunday. Mrs. Craig and the younger children came about three weeks ago, but the two eldest daughters remained to take the departmental examinations in the Blairmore school.—Nanton News.

Brooding over his coming trial on a charge of illegal trapping, William Floyd shot and almost instantly killed Game Warden Dennis Greenwood at Canal Flats, B.C., on Saturday afternoon last. Greenwood leaves a wife and two children, while Floyd is a married man with a family. Both men had served overseas.

Geo. F. Hudson, of Calgary, provincial inspector and organizer of the Canadian Legion, B.E.S.L., Alberta Command, addressed a gathering of ex-service men in the Moose Hall on Sunday afternoon last, on the aims and objects of the Legion. Mr. Hudson is well versed on the topic and appealed for greater co-operation in behalf of the association, especially towards the local branch, so as to maintain the splendid service to returned men and dependents, and secure further needed assistance.

What might have been a serious car accident, occurred on Friday afternoon on the Blue Trail about 4 miles north of Macloed, near the Glenwillow school, just at the lake, south of the school. Geo. Bick, of New York, was going north and Fred A. Gregory, of Hillcrest, was coming south, when evidently one of the cars skidded on the gravel with the result that they had a head-on collision, tearing off the left front wheel and fender on both cars. Fortunately no one was hurt, but one of the cars was within a few inches of tumbling into the lake. Corp. R. Vise, A. P. P., was quickly on the scene, and after discussing the accident, each of the car owners decided to pay their own repairs.—Macloed Times, July 8th.

W. J. Bartlett, editor of this paper, returned yesterday from Montreal.

Large numbers of tourists are occupying the Blairmore campsite nightly.

McKeen Hunter, of Coleman, has left for his old home in Springhill, N.S., for a few month's visit.

At least we are assured of some support. A diner waiter a few days ago said he would stand behind us.

EYES EXAMINED at Blairmore Pharmacy, Saturday, July 19. E. J. Anderson, B.Sc., will be in attendance.

Mrs. Fraser and daughter and son, Lena and Billie, of Calgary, are spending the summer vacation in Blairmore.

The Palace theatre, at Coleman, was reopened on Monday of this week, after a few weeks shutdown while undergoing repairs.

An exchange remarks: Canada has won the Diamond Sculls. These have nothing to do with the election skulls, which are much thicker.

Blairmore succeeded in winning out in the sports baseball tournament, taking the final game from Fincher Creek on Thursday last.

FURNITURE FOR SALE, stoves, beds, dressers, buffets, dining and kitchen tables, dishes, cooking utensils. Apply to F. S. Kafoury, above Kerr's store.

J. M. Heuston motored up from Blairmore Sunday on a brief visit with Mr. and Mrs. A. A. Cummings, returning home Tuesday.—Nanton News.

At Coleman on Monday, June 30, returning officer James Ford declared the result of the provincial election on June 19th as follows: G. E. Cruickshank 1604, Joseph Stobbs 820, Richard Sudworth 783. There were 265 spoiled ballots in the 18 polls.

Mr. Green, from Blairmore, one of the directors of the Big Horn and Saunders Creek Colliery Co., paid a visit here during the week and was very well pleased with the development, which he went over with Mr. Morgan, inside and out. There is one thing he did not promise to do, and that is build a cenotaph for those who do not return.—Saunders News, in Red Deer Advocate.

The boxing match at Stavelly following the ball tournament last week, and promoted by Tommy White, of Calgary, was something of a dud. "Red" Rorstrom, one of the principals, refused to go in the ring until his \$50 guarantee was paid, and at one time it was decided to cancel the whole show. Then Stavelly raised half the guarantee, and the promoter paid the other half from the gate receipts. The preliminaries were satisfactory, but in the main bout, Rorstrom was knocked out by Befus in two rounds. The promoter paid all his bills in Stavelly; but as a boxing exhibition, it was a great disappointment to the fans.—Nanton News.

WANTED—To Rent Furnished House, by man and wife. Best references, Apply Box 1996, Blairmore.

IN MEMORIAM

In loving memory of our dear son and brother, Johnny Bovio, who was drowned in Lee Lake July 8, 1927.

"God knows how much we miss him. He counts the tears we shed. He whispers 'Hush! he only sleeps. Your loved one is not dead.' Some day, some time, our eyes shall see

The face we loved so well: Some time, some place, his hand we'll clasp And never say 'Farewell.'"
Sadly missed by his father, mother and sisters, Bellevue, Alberta.
